

Prue Carroll

Prue brings a new perspective and skill set to the Chroma Group team with her extensive knowledge of and experience within the financial sector. Familiar with high intensity and results driven environments, her skill set blends well into the construction project engineer role.

Alongside her skills she also brings a fresh passion and drive for the construction process; seeing a plan and experiencing the space come to life.

Prue prides herself on her forward thinking problem solving, stakeholder management and time management skills, all of which will see her thrive in the Chroma Group team.
